

October 1, 2020

Dear Student/Parent/Guardian:

Welcome back! On behalf of the Family Health Centers at NYU Langone's School-Based Health Program, we hope your families have been safe and well since school buildings closed this past March 2020. Because of the COVID-19 pandemic, our program is more important than ever. It is our pleasure to inform you that we will be back at the School-Based Health Center (SBHC) at **South Shore Educational Complex** this year. That means we will be providing the quality healthcare services that have become vital to your family's experience at **South Shore Educational Complex**. Having a SBHC in your school allows for quick and easy access to quality services. Our SBHC is staffed with licensed professionals from the Family Health Centers at NYU Langone.

Some program updates to start the school year:

- ☺ With our new Virtual School-Based Health service, it is now easier than ever to see one of our providers, even if a student cannot make it to school! This is a service available to students wishing to receive medical and behavioral health services using a smartphone or tablet.
- ☺ Our team can be contacted any time of day by dialing our School-Health Program Hotline at **(347) 377-3170**. Please make sure to choose the option for medical or behavioral health.
- ☺ Our team can also be contacted by emailing us at **FHCSchoolHealth@nyulangone.org**.
- ☺ Visit our webpage at **nyulangone.org/FHCSchoolHealth** for program updates.

For families not yet enrolled, we will be providing you with information on how to enroll in our program at **South Shore Educational Complex**.

Again, welcome back! We are excited to continue being part of the community at **South Shore Educational Complex**. The Family Health Centers at NYU Langone is dedicated to providing quality healthcare to all of our patients and their families in the communities we serve.

Please feel free to contact us with any questions.

Sincerely,

School-Based Health Program
